ÄRA  
BY STERN

It is the moments with friends and family that make our lives so worth living – precious moments of togetherness in which the world holds its breath and exists only for us. It is precisely for these moments that we have created ÄRA. A homage to life, captured in each piece of furniture – carefully selected and crafted with exceptional craftsmanship to give your outdoor space a special elegance. ÄRA invites you to write your own stories, create memories and celebrate the joy of being together.

# ROX

The ÄRA series that makes your outdoor moments unforgettable. The black matt aluminum frame with the filigree aluminum struts harmoniously combines form and function and gives the series a unique aesthetic. The comfortable, light grey seat cushions invite you to sit together in comfort. Consisting of chair, armchair and 3-seater bench, ROX is the perfect ensemble for your garden.

# NOA

With its curved design and elegant materials, the exclusive NOA Lounge takes you away to your own personal finca. The elegant seat is supported by slender, black matt feet and offers the highest level of seating comfort. The armchair with optional stool invites you to relax and enjoy the open air. In combination with the side table OXO, a perfectly balanced contrast is created.

# OXO

The side table is a homage to the beauty of nature, which creates a cosy atmosphere with its round shape – reminiscent of the warm sun – and allows the aluminum rods to create a fascinating play of shadows. The table top of the side table is made of high-quality Dekton in the decors Stone beige and Stone grey. The table frame is available in the colours sand matt and black matt and in two sizes in concave and convex form. The OXO side table can be ideally combined with other pieces of furniture from the ÄRA premium collection and is a real eye-catcher in your outdoor living room.

# AVA

In the midst of our hectic everyday lives, there is one place where time seems to stand still – at a beautiful dining table. It is a meeting place where we can tell stories, laugh about the past and make plans for the future. It reminds us that the simplest things are often the most precious.

Create your own personal meeting place with AVA – and thanks to the variety of versions, individually suitable for your outdoor dining room. The exclusive Dekton table tops in the decors Stone grey and Stone beige finishes blend seamlessly into the aesthetics of the ÄRA Dining furniture. Thanks to the three sizes and two frame colours in matt black and matt sand, there is enough scope for individual wishes.

# MATERIAL

ALUMINUM

Despite its low weight, aluminum is very stable. In addition, aluminum is easy to clean, weatherproof, heat-resistant, rustproof and recyclable. Light dirt can be removed with a soft cloth, lukewarm water and neutral cleaning agents (pH value ~7).

DEKTON

Dekton is composed of 20 natural minerals. In a novel technological process, Dekton recreates in a few stands what nature needs several millennia for. Pressed with 25,000 tonnes, the material is compacted to such an extent that it meets the highest demands. The fibreglass reinforcement provides additional stability.

For our ÄRA fabrics Mélange and Flora we rely on Q2 from the German manufacturer Rohleder – 100% made in Germany. Q2 is an advanced, fully synthetic high-tech fabric that combines aesthetic values with the highest quality standards. The fabric is produced without chemical additives or finishes and is suitable for allergy sufferers. Furthermore, they are tested for skin compatibility by the renowned institute ITV Denkendorf.

DIE HITEX® MANUFAKTUR

FABRIC MÉLANGE

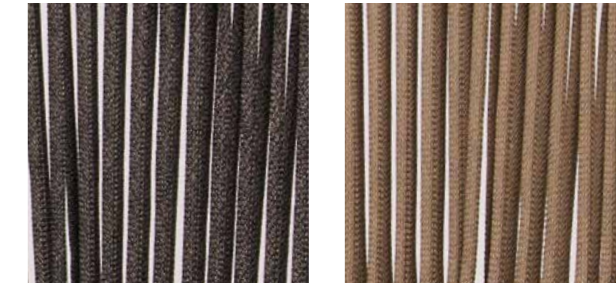

The fabric we use, Mélange, is made of 68 % polyacrylic and 32 % polyester, available in the colours grey and rosé. The fabric Flora in grey and rosé consists of 51 % polyacrylic and 49 % polyester. The materials convince with their excellent light fastness (6-7) and colour fastness (4-5). All covers are equipped with a zip. They are therefore washable at 30 degrees, salt water resistant and extremely abrasion resistant. Care and cleaning are possible without chemical treatment. In addition, they offer a pleasant seating climate and high comfort, without heat accumulation and moisture problems.

FABRIC FLORA

**ROHLEDER**  
DIE HITEX® MANUFAKTUR

100 % polypropylene, filled with a core of durable, thermoplastic rubber. Polypropylene is highly abrasion resistant, lightfast and less susceptible to moisture. The material remains reliable and resilient at temperatures down to -10 degrees.

ROPE

TEAK

Teak is very robust, weather-resistant and hard. The oils in the teak protect the wood and ensure a very long life. For cleaning and care, we recommend STERN Teak Cleaner and STERN Teak Protector. All the wood used in our teak furniture is imported with a FLEGT licence.

# DESIGNER

JÜRGEN SOHN

In the year 1994 Jürgen Sohn established his design studio. There he develops products, which reflect emotion and continuity. By having experiences in the design of products, graphics and industrial goods he works together with numerous companies. He has been designing for STERN since 2009.

STERN  
DESIGN-TEAM

Hans Winkler, born in Würzburg in 1963, studied at the Fachakademie für Holztechnik und Gestaltung in Stuttgart after his training as a carpenter. Since 2000 Hans Winkler has been the owner of the design agency Hans Winkler Design. During his time at the agency, he and his team have not only been nominated for various international design awards, but are also in demand as a consultant and designer for serial furniture, shop and trade fair concepts and classic industrial design (mechanical engineering etc.).

HANS WINKLER DESIGN

With longterm experience and an open eye on changing trends and materials, STERN pursues the development of furniture. This means not only to focus on uniqueness, but also on a sustainable realization.
